Digital Factory

Digital Cities

Tech Driver 1: Spatial Sensors

Point Clouds

Reality Mesh

360 Images

Planar & Oblique Images

Apple has just announced iPads and iPhone with Lidar scanners

Tech Driver 2: Autonomous Vehicles

Tech Driver 3: High Performance Computing (Cloud and On-Premise)

Scaleable Compute

Scaleable Storage

Scaleable Communication

Tech Driver 4: GPU Processing

Tech Driver 5: AI-ML

Sensors on autonomous vehicles deliver data

to high performance computing infrastructure

where GPUs and machine learning deliver insights

Urban Digital Twin

SINGAPORE

- Building a city digital twin is progressive, project by project
- Underground is important

DUBLIN

- Major events are a challenge and a catalyst for progress
- Open Data is an opportunity

STOCKHOLM

- Citizen engagement is key
- Response to climate change is critical
