Project Request Form

Please remember to complete and submit your application form before the end of the application window. If you wish to continue your application later, remember to click the "Save Draft" button.

1	**2**	**3**	
Basic Information	Project Type	Project Deliverables	Project

Basic Information

Project Name *

Please use the same project name as per your funding application.

...ur project, including the following information:

Project Significance (National or Global benchmark) *

Primary Scientific Domain*

Please Select One

Additional Scientific Domains ⓘ

Organisation

Choose...

If Others, please state ⓘ

Software Application * ⓘ

e.g. VASP, LAMMPS, GROMACS, etc.

Type of computation * ⓘ

Principal Investigator / Project Supervisor *

Please provide the contact information of the Principal Investigator (PI) or supervisor. For group projects, please note that the applicant should be the PI or a team member authorised by the PI to submit the application on their behalf.

This must be a person different from the Project Applicant.

For users from IHLs (SIT, SMU, SUSS, NP, NYP, RP, SP, TP), the PI / project supervisor must be from the same institute as the applicant.

Name *

Salutation *

Organisation *

Department *

Contact Number *

Official Email *

Add member 0 - members

Save Draft **Next**

1. Please ensure you click "Submit" after completing the application.

2. The Principal Investigator (PI) must be informed if the application is being submitted on their behalf.

3. Please use the same Project Name as the one used in your funding application. This will facilitate verification by your Research Office.

4. Provide valid NSCC UserIDs of the members the PI wishes to add to the Project Folder. Names and email addresses will not be accepted.

Basic Information	Project Type			Summary

* Note that your project must be RIE funded

Project Grant ID*

5. The Project Grant ID refers to the approved Grant ID given by the project's grantor/funding agency. It is NOT NSCC Project ID.

Project Start Date *

Date

Project End Date *

Date

6. This refers to the duration of your research project. For multi-year projects, please indicate the full project duration accordingly.

Is your project under any of the programme/RIE Pillars/domain listed below?

Domain

Please Select One

Fundin

Select

If your Domain is not in the list (Others), please elaborate:*

Overall project funding (SGD)

This question is required for us to have a high-level understanding of the scale of your project.

Status of Project funding *

Please Select One

If your project funding has yet to be approved, please state when you will be expecting to receive the res

Date

Is there a compute budget (out of the overall project funding) allocated?

If yes, how much compute budget has been allocated (out of the overall project funding)? Please provide in SGD

<Leave blank if your answer is No. Note that projects without compute budget will not be prioritised.>

If no, please provide reasons below.

<Leave blank if your answer is Yes.>

7. Projects MUST have a sufficient budget allocated for compute resources to cover the entire project duration. Projects indicating zero compute budget will not be given priority.

8. Remember to click "Save Draft" after completing each segment.

Basic Information	Project Type	Project Deliverables	Project Resources	Summary

Please provide the expected deliverables throughout the full duration of your project. Indicate the manpower involved in the project only and not the entire research lab/Institute. Select the relevant checkboxes and input the values. You need to select at least one deliverable type.

Training R&D Manpower for the Industry

Master Students Trained

PhD Students Trained

Total No. of RSEs Involved

Master/PhD Students Spun Out as RSEs

Research Staff Spun Out as RSEs

No. of Post-doctoral Researchers Hired   [1]

Developing Long Term R&D Capability

Joint Project with Prestigious International Organisations

Joint Program/Projects with Local Universities

No. of Invention Disclosures

No. of Patents Filed

No. of Patents Granted

No. of Patents Commercialised

No. of Papers Published in International Journals

No. of Presentations at International Conferences

No. of External Awards at International Level

Additional Information on Project Deliverables (optional)

> 9. Remember to click "Save Draft" after completing each segment.

If you are unable to provide the full details required, please state your reasons here.

✎ **Create Project**

✈ **Logout**

1	2	3	4	5
Basic Information	Project Type	Project Deliverables	Project Resources	Summary

* Select the HPC resources that you need.
* You must select at least one HPC resource type.
* Approved projects receive 100% of their requested HPC resources for their entire projects' duration. (For e.g. if the approved project has a duration of 3 years, award will be given for 3 years. PI does not need to apply for renewals every year.)
* Note that you should submit your requests in terms of CPU core hours for CPU-only jobs / GPU card hours for GPU jobs.
* Each GPU card-hour requested on ASPIRE2A and ASPIRE2A+ includes 16 and 14 free CPU core-hours, respectively, within the same GPU node(s). If you need CPU core-hours on CPU-only nodes, request them separately, as they are charged separately.
* They will be converted into Service Units (SU) automatically in the system.

Please provide the quarterly projection for the first 12 months:

	CPU core hours: ⓘ	**GPU** card hours (based on A100): ⓘ
Q1	0	0
Q2	0	0
Q3	0	0
Q4	0	0
Year Total	0	0

> 10. Approved projects will receive 100% of their requested HPC resources for the entire project duration. (For e.g., if the approved project has a duration of 3 years, the award will be given for 3 years. PI will not need to apply for annual renewals.)

If your project is a multi-year project, please provide a yearly projection of the resources required for the subsequent years:

	CPU core hours: ⓘ	**GPU** card hours (based on A100): ⓘ
2nd year	0	0
3rd year	0	0
4th year	0	0

Add **Delete**

Your Request: **Total CPU:** 0 (hrs)   **Total GPU:** 0 (hrs)   **Total (SU):** 0
